DETAILED ACTION

Claim Objections

1. Claim 7 is objected to because of the following informalities: In claim 7, line 5, where applicants recite "...removethe undoped..." should recite -- remove the undoped --. Appropriate correction is required.
2. Claim 10 is objected to because of the following informalities: In claim 10, lines 7-10, applicants recite, "...first column of "...the deep trenches and a plurality of a second column of the deep trenches, and the first column of the deep trenches crosses over the second column of the deep trenches...". However, it seems that there is no description of such limitation in the disclosed specification and/or the submitted drawings. Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-9 would be allowable if rewritten to overcome the claim objection, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
4. Claims 10-16 would be allowable if rewritten or amended to overcome the claim objection, set forth in this Office action.
5. Claims 17-20 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to teach forming an undoped semiconductor layer in an upper part of each of the plurality of deep trenches at a border of each deep trench that is

adjacent to an active region; and doping a region of said undoped semiconductor layer except at regions adjacent to said active region.
